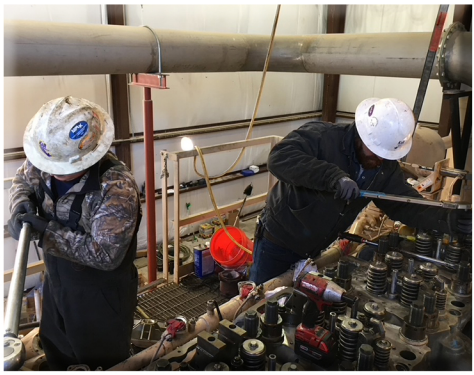
K&R
Operating LLC

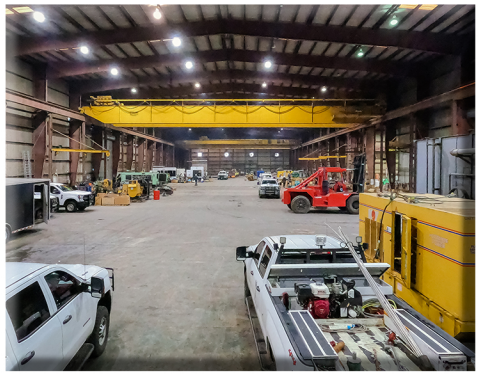
K&R Operating's core business is engine, compressor and generator, field and shop services. Our primary focus is major maintenance, engine, compressor, and generator overhauls, PM programs, startup and commissioning, and revamping units for redeployment. Since 2016 we have taken pride in providing dedicated technicians, equipped with the latest industry tooling and certifications of engines, compressors and generators. Areas of operation are across the US making us readily available for your needs.

K&R Operating's process technicians support and maintain a wide range of customer owned natural gas processing equipment to ensure optimal plant performance in cryogenic, refrigeration, amine plants, dehy cleaning, mole sieve, carbon bed replacement, and cooler cleaning. Safety is top priority supported by high ratings in ISNetworld, Veriforce and PICS compliance programs.

"The core values of K&R and the people here who uphold them ensure that our customers receive the best quality and attention in the industry, as they always have in the past, expect in the present, and can plan on for the future."

-Travis Urbanovsky, President





Natural Gas Engine & Compressor Services:

- General Troubleshooting & Diagnostics
- Engine & Compressor Overhauls
- Control Panels
- Emissions Testing
- PM Programs
- Swing Engines
- Commissioning Services
- Laser Alignments
- H2S Certified
- Field & Shop Services
- Skid Revamps & Reconfiguration
- Compressor & Engine Parts Sales: OEM & Non-OEM
- Cooler Cleaning Services
- Make Ready Services

Power Generation Services:

- Natural Gas & Diesel Fuels
- Field and Shop Load Testing
- Field and Shop Overhauls
- Complete Shop Revamps
- Engine Electrical Starting Systems
- Generator: Windings, Bearings, Brushes/Diodes, Leads/Connections, Circuit Breakers
- Safety Controls/Control Panels
- Instrumentation
- Air Induction & Exhaust Systems
- Fuel Systems
- Enclosures: New & Rebuilds
- Parts Sales: OEM & Non-OEM
- Preventative Maintenance Programs
- New, Used & Refurbished Equipment Sales
- Packaging New, Used or Refurbished Equipment

Production and Process Equipment Services:

- TEG & Mole Sieve Dehy Systems
- Carbon Bed Replacement
- Amine Systems
- Line Heaters
- Filter Vessels
- Stabilizers
- Flares
- BTEX
- Ignition Systems
- Heater Treaters
- Vessel Confined Space Entry
- Cooler Cleaning
- New, Used and Refurbished Equipment Sales
