K&R

K&R Operating provides comprehensive field and shop services for engines, motors, compressors, and generators. Our core capabilities include major maintenance, complete engine and compressor overhauls, generator service, electric motor repair and rewinds, preventive maintenance programs, startup and commissioning, and unit revamps for redeployment. Since 2016, we have taken pride in delivering highly skilled technicians equipped with advanced tooling and industry certifications. With operations across the United States, our teams are positioned to respond quickly and effectively to customer needs.

Our process technicians support and maintain a wide range of customer-owned natural gas processing equipment to help ensure safe, reliable, and efficient plant performance. This includes work in cryogenic, refrigeration, amine, and dehydration systems, as well as cooler cleaning and specialty plant services. Safety is a top priority and is reinforced by our strong ratings and compliance standing with ISNetworld, Veriforce, and PICS.

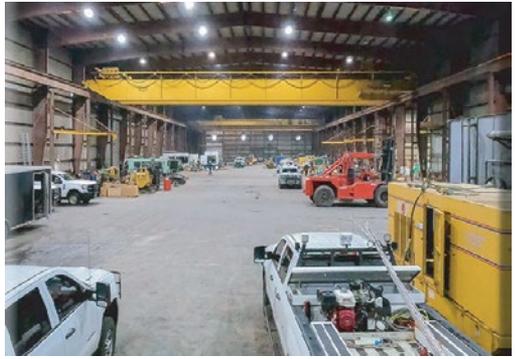

“The core values of K&R and the people here who uphold them ensure that our customers receive the best quality and attention in the industry, as they always have in the past, expect in the present, and can plan on for the future.”

- Travis Urbanovsky, President

Natural Gas Engine & Compressor Services:

- General Troubleshooting & Diagnostics
- Engine & Compressor Overhauls
- Emissions Testing
- PM Programs
- Exchange Engines
- Commissioning Services
- Laser Alignments
- H2S Certified
- Field & Shop Services
- Skid Revamps & Reconfiguration
- Compressor & Engine Parts Sales:
OEM & Non-OEM
- Cooler Cleaning Services
- Make Ready Services

Power Generation Services

- Natural Gas & Diesel Fuels
- Field and Shop Load Testing
- Field and Shop Overhauls
- Complete Shop Revamps
- Engine Electrical Starting Systems
- Generator: Windings, Bearings, Brushes/Diodes, Leads/Connections, Circuit Breakers
- Safety Controls/Control Panels
- Instrumentation
- Air Induction & Exhaust Systems
- Fuel Systems
- Enclosures: New & Rebuilds
- Parts Sales: OEM & Non-OEM
- Preventative Maintenance Programs
- New, Used & Refurbished Equipment Sales
- Packaging New, Used or Refurbished Equipment

Production and Process Equipment Services:

- TEG & Dehy Systems
- Dehy and Oil Stabilizer Cleaning
- Dehy Acid Washes
- Carbon Bed Replacement
- Line Heaters
- Filter Vessels
- Stabilizers
- BTEX
- Ignition Systems
- Cooler Cleaning
- Kimray Pump Repair
- New, Used, and Refurbished
Equipment Sales

HVAC & Refrigeration Services:

- New Equipment Installation, Replacement & Repair
- Upgrades for all HVAC/R Systems & Equipment
